IMPORTANT LEGAL AND TECHNICAL INFORMATION REGARDING THE SELECTION AND CONFIGURATION OF YOUR MOTORHOME

Each motorhome is only approved for a certain maximum weight on the road, which must not be exceeded under any circumstances when driving. When you select and configure your motorhome or van (hereinafter referred to as: "motorhome"), the technical and legal limits for the weight of the motorhome are therefore extremely important. These play a decisive part in the configuration, particularly when the additional equipment is being selected (equipment packages, special equipment and options).

The technical and legal requirements for the weight of your motorhome are regulated in EU Implementing Regulation No. 2021/535 (until June 2022: EU Implementing Regulation No. 1230/2012). This applies uniformly within the European Union. In order to make it easier for you to select and configure your motorhome in compliance with the legal and technical requirements, we will explain the key terms and requirements of this regulation and give you some information that is extremely important for configuring your vehicle and selecting your additional equipment (equipment packages, special equipment and options) from the items that are available from the factory. Please read this information carefully before configuring and ordering your vehicle. Our dealers will provide you with additional assistance in selecting and configuring your motorhome.

1. TECHNICALLY PERMISSIBLE GROSS VEHICLE WEIGHT

The technically permissible gross vehicle weight describes the maximum permissible weight, based on the layout, that your motorhome is allowed to weigh when laden (e.g. 3,500 kg, 4,500 kg) as specified by the manufacturer. This is entered in Part I of the registration certificate. You can find information about the technically permissible gross weight for each layout in the technical data which is shown in our sales documents (e.g. in the price lists).

Illustration in the price list:

Malibu A-Class

	I 441 KB-LE lightweight 3.5t	
	Fiat Ducato	Mercedes-Benz Sprinter
Standard chassis	Low frame 35 light	AL-KO low frame special light 315 CDI
Base engine	Diesel 2.2 l	Diesel 2.0 l
Output (kW/hp)	103 / 140	110 / 150
Transmission	6-speed manual transmission	9G-TRONIC automatic transmission
Length/width/height (mm) [16] [17] [18]	6,570 / 2,170 / 2,970	6,695 / 2,170 / 2,950
Wheel base (mm)	3,450	3,625
Double floor height / double floor basement (mm)	170 / 170	220 / 220
Headroom in living area (mm)	1,980	1,980
Rear garage interior height (mm)	1,200	1,200
Door width / height rear garage on passenger's side (mm)	950 x 1,140	950 x 1,140
Door width / height, rear garage on driver's side (mm)	800 x 1,140	800 x 1,140
Technically permissible gross vehicle weight (kg) [23]	3,500	3,500
Mass in running order (kg) [7]	2,903 (2,758 – 3,048)	2,916 (2,770 – 3,062)
Weight of additional equipment fitted as standard, as specified by the manufacturer (kg) [14]	233	218
Max. towing capacity (kg) [27]	2,000	2,000
Max. number of seats with 3-point / 2-point safety belt while driving* [22]	4	4

The technically permissible gross vehicle weight (e.g. 3,500 kg) must not be exceeded under any circumstances while driving. If the vehicle exceeds the technically permissible gross vehicle weight while driving, this constitutes a regulatory offence which may be punishable with a fine. We therefore urgently advise you to check this before each journey and ensure that you and your vehicle do not exceed the technically permissible gross vehicle weight (e.g. 3,500 kg).

2. MASS IN RUNNING ORDER

The weight in roadworthy condition corresponds to the (unladen) weight of the vehicle with standard factory equipment (including lubricants, tools, tyre repair kit and a fuel tank that is 90% full) plus a statutory default weight of 75 kg for the driver.

The mass in running order essentially includes the following items:

- the unladen weight of the vehicle with the habitation including filled operating fluids such as lubricating grease, oils and coolants;
- the standard equipment, i.e. all equipment items which are included in the vehicle within the scope of delivery;
- a fresh water tank that is 100% full when driving (filling when driving in accordance with the manufacturer's specifications. You will find the manufacturer's information about filling the vehicle in the sales documents (e.g. in the price lists). This is 20 l or 50 l depending on the model range) and an aluminium gas bottle that is 100% full, weighing 16 kg;
- a fuel tank that is 90% full;
- the driver, whose weight is set at a flat rate of 75 kg, regardless of the driver's actual weight.

The mass in running order is therefore the basic configuration of the vehicle model you have selected with standard equipment plus a statutory flat rate weight of 75 kg for the driver. This changes after selecting additional equipment (equipment packages, special equipment, options).

You will find information about the mass in running order for each layout in our sales documents (e.g. in the price lists).

It is important that the value given in our sales documents for the mass in running order is a standard value which is determined during the type approval procedure and checked by the authorities. It is legally permissible and possible for the mass in running order of the vehicle which is delivered to you to differ from the nominal value specified in the sales documents due to production-related tolerances. The legal tolerance is ± 5%. The EU legislator has taken into account the fact that there are certain fluctuations in the mass in running order due to fluctuations in the weight of the supplied parts as well as process and weather-related factors. Please take this into consideration when selecting and configuring your motorhome.

Example calculation illustrating these (permissible) production-related weight deviations:

Mass in running order according to sales documents:	2,900 kg
Legal tolerance of ± 5%:	145 kg
Legally permissible range of mass in running order:	2,755 to 3,045 kg

The specific range of permissible weight deviations for the mass in running order for each layout can be found in the technical data shown in our sales documents. As a manufacturer, we endeavour to restrict weight fluctuations to the minimum that is unavoidable in terms of production technology. Deviations above and below within the legally permissible tolerance range therefore only occur very rarely. However, in spite of constant technical optimisation of the production process, these cannot be completely avoided.

In order to ensure that all of the vehicles which are actually delivered comply with the legally permissible tolerance, the actual weight of the vehicle and compliance with the permissible tolerance of ± 5% is checked by us as the manufacturer by weighing the vehicle upon completion in the production area at the end of the production line. Your dealer will inform you of the actual weight of your vehicle that was measured at the end of the production line. This gives you full transparency about any weight discrepancies that may be present in your vehicle.

3. NUMBER OF MAXIMUM PERMITTED SEATS / WEIGHT OF PASSENGERS

The maximum number of permitted seats while driving is determined by us as the manufacturer during the type approval procedure. The weight of the passengers results from the maximum number of permitted seats. The weight of the passengers is a flat rate of 75 kg for each approved seat which we as the manufacturer have provided for the vehicle, regardless of what the passengers actually weigh. This is also a legally prescribed calculation. Since the weight of the driver is already included in the mass in running order, i.e. 75 kg (see section 2.), this is not taken into consideration in the weight of the passengers. In a motorhome with four approved seats, the weight of the passengers is 3 x 75 kg = 225 kg.

The specification of the maximum permissible number of seats in the sales documents refers to the respective vehicle weight in a standard set-up without additional equipment (for additional equipment, see section 4.) and specifies the maximum possible number of persons who can be seated while driving.

However, the number of seats depends on the weight and axle load. For example, it can be reduced by installing additional equipment (e.g. by selecting equipment packages, special equipment and options) or, depending on the model, only be achieved by increasing the permissible total weight and/or by omitting additional equipment.

4. ACTUAL WEIGHT AND ADDITIONAL EQUIPMENT

The mass in running order (see section 2.) and the weight of the factory-installed additional equipment (equipment packages, special equipment, options) in a specific vehicle are collectively referred to as the actual weight of the vehicle.

You can find information about the actual weight of your vehicle after it has been handed over in section 13.2 of the Certificate of Conformity (CoC), which will be given to you by your dealer when the handover takes place.

Please note that the actual weight which is specified in the Certificate of Conformity (CoC) is also a standard value. Since the mass in running order – as part of the actual weight – has a legally permissible tolerance of ± 5% (see section 2.), the actual weight can deviate from the specified nominal value accordingly.

According to the legal definition, the so-called additional equipment includes all optional equipment parts that are not included in the standard equipment and is fitted to the vehicle by the manufacturer (i.e. ex works) and can be ordered by the customer (e.g. awning, bicycle or motorcycle rack, satellite system, solar energy system, oven etc.). Information about the individual or package weights of the equipment packages, special equipment and options which can be ordered can be found in our sales documents. Other accessories that are retrofitted after delivery of the vehicle from the factory by the dealer or by you personally are not included in the special equipment in this sense.

5. MAXIMUM WEIGHT OF ADDITIONAL EQUIPMENT SPECIFIED BY THE MANUFACTURER AND PAYLOAD

Since the installation of additional equipment is also subject to legal and technical limits, we determine the value of the maximum weight of additional equipment which can be fitted to the vehicle in addition to the standard equipment (e.g. by selecting equipment packages and/or special equipment) for each layout and vehicle. This value must not be exceeded when you are selecting and configuring your vehicle.

The weight of additional equipment specified by the manufacturer can be found in our sales documents (e.g. in the price lists).

Malibu A-Class

	I 441 KB-LE lightweight 3.5t	
	Fiat Ducato	Mercedes-Benz Sprinter

Mass in running order (kg) [7)]	2,903 (2,758 – 3,048)	2,916 (2,770 – 3,062)
Weight of additional equipment fitted as standard, as specified by the manufacturer (kg) [14)]	233	218
Max. towing capacity (kg) [27)]	2,000	2,000
Max. number of seats with 3-point / 2-point safety belt while driving* [22)]	4	4

The maximum weight of additional equipment specified by the manufacturer is intended to ensure that the legally prescribed minimum payload is also actually available for the vehicle payload after delivery of a vehicle by the manufacturer. This means that only a certain amount of additional equipment can be ordered and installed in the factory, in order to leave a sufficient weight allowance available for luggage and other accessories (the so-called payload) without exceeding the technically permissible gross vehicle weight.

The payload is calculated by subtracting the mass in running order (nominal value according to the sales documents, see section 2.), the weight of passengers (see section 3.) and the maximum weight of additional equipment specified by the manufacturer from the technically permissible gross vehicle weight (see section 1).

For motorhomes, the European legislation prescribes a fixed minimum payload, which must remain for luggage or other accessories which are not installed in the factory. This minimum payload is calculated as follows:

Minimum payload in kg ≥ 10 * (n + L)
In this calculation: "n" = maximum number of passengers plus the driver and "L" = total length of vehicle in metres (including decimal places).
For a motorhome with a length of 7 m and 4 approved seats (including the driver), for example, the minimum payload is 10 kg * (4 + 7) = 110 kg.

When you are configuring your motorhome, please note that the payload must not fall below the minimum.

To ensure that the minimum payload is adhered to, there is a maximum combination of additional equipment which can be ordered for each vehicle model. In the above-mentioned example with a minimum payload of 110 kg, the total weight of additional equipment for a vehicle with four approved seats (including the driver) and a mass in running order of 2,900 kg should be a maximum of 265 kg:

3,500 kg	Technically permissible gross vehicle weight
- 2,900 kg	Mass in running order
- 3 x 75 kg	Weight of passengers
- 110 kg	Minimum payload
= 265 kg	Additional equipment

Please note that this calculation is based on the standard value for the mass in running order determined during the type approval process, without taking account of the permissible weight deviations for the mass in running order (see section 2.). If the maximum permissible value for the additional equipment of (in this example) 265 kg is almost or completely exhausted, an upward weight deviation in the mass in running order may therefore result in the minimum payload of 110 kg being theoretically maintained using the standard value of the weight in running order, but in reality there is no corresponding payload option.

Here is another sample calculation for a vehicle with four approved seats, whose actual mass in running order is 1% above the nominal value:

3,500 kg	Technically permissible gross vehicle weight
- 2,929 kg	Actual mass in running order of the vehicle (+ 1% compared to the 2,900 kg specified in the sales documents)
- 3 x 75 kg	Weight of passengers
-265 kg	Weight of additional equipment
= 81 kg	Actual payload (< minimum payload of 110 kg); in this example, the minimum payload is therefore undershot by 29 kg

In order to avoid such a shortfall in the minimum payload, the manufacturer reduces the weight of the additional equipment that can be ordered based on the layout. Limiting the additional equipment is intended to ensure that the minimum payload, i.e. the legally prescribed weight available for luggage and other accessories, is actually achieved for the payload of the vehicles delivered by the manufacturer.

As, due to production reasons, the actual weight of the specific vehicle is only determined when it is weighed at the end of the production line, it cannot be completely ruled out that in rare exceptional cases a situation may arise, whereby the minimum payload is not guaranteed at the end of the production line despite this limitation of additional equipment. In order to guarantee the minimum payload in these cases, the manufacturer will check with you and your dealer before delivery of the vehicle whether, for example, the vehicle is overloaded, the number of permitted seats is reduced or additional equipment is omitted to reduce the weight, so that you receive a vehicle that has the legal minimum payload. The weight of additional equipment offered by the manufacturer can be found in our sales documents (e.g. in the price lists).

210338	Fiat 10.1" multimedia system including sat nav, motorhome route guidance and DAB+ [47]	1,495	1
310605	90-litre fuel tank	110	23

The additional weight of additional equipment (all equipment parts not included in the standard equipment) increases the actual weight of the vehicle (= mass in running order plus the selected additional equipment) and reduces the payload. The specified value indicates the additional weight compared to the standard equipment of the respective layout. The total weight of the selected additional equipment (equipment packages, special equipment and options) must not exceed the maximum weight of additional equipment specified by the manufacturer.

6. THE EFFECTS OF MASS IN RUNNING ORDER TOLERANCES ON THE PAYLOAD

Regardless of the minimum payload, you should also note that unavoidable production-related fluctuations in the mass in running order have an effect on the remaining payload:

If you order our example vehicle (see section 5) with additional equipment with a total weight of 150 kg, the calculated payload is 225 kg based on the default value for the weight in roadworthy condition. Due to the tolerances, the payload that is actually available may deviate from this value and may be higher or lower. If the mass in running order of your vehicle is about 1% higher than the weight specified in the sales documents, the possible payload is reduced from 225 kg to 196 kg:

3,500 kg	Technically permissible gross vehicle weight
- 2,929 kg	Actual mass in running order of the vehicle (+ 1% compared to the 2,900 kg specified in the sales documents)
- 3 x 75 kg	Weight of passengers
- 150 kg	Ordered additional equipment for the specifically configured vehicle
= 196 kg	Actual payload

to ensure that the calculated payload is actually achieved, you should therefore take into account the possible and permissible tolerances in the mass in running order when selecting and configuring your vehicle. We also strongly recommend weighing the laden motorhome on a non-automatic weighbridge before every journey and determining whether the technically permissible gross vehicle weight and the technically permissible total axle load are adhered to, taking account of the individual weight of passengers.

Malibu Motorhomes

Differentiation in weight and equipment variants:
lightweight 3.5 t and comfort 4.2 t

Malibu Motorhomes come in two different weight and equipment variants.
For you as a customer, this distinction provides a clear indication of which models meet your requirements.

Our **lightweight 3.5 t models** are the perfect choice for those who value a lightweight vehicle that meets the requirements of the 3.5 t class and can be driven with a B Class EU driving licence. These combine innovative lightweight construction with Malibu's unique features.

Our **comfort 4.2 t models** are the perfect choice for those who are not dependent on the 3.5 t weight class and want to experience premium comfort. The huge payload reserves and maximum living comfort of these models leave nothing to be desired.

To make it as easy as possible for you to choose the right model, here are the equipment differences between the lightweight 3.5 t and comfort 4.2 t models.

lightweight 3.5 t	comfort 4.2 t	Optional on lightweight 3.5 t
Fiat Ducato chassis		
Fiat Ducato with technically permissible gross vehicle weight of 3,500 kg	Fiat Ducato with technically permissible gross vehicle weight of **4,250 kg**	-
Standard 60-litre fuel tank	Standard 60-litre fuel tank, **90-litre fuel tank available in Chassis Comfort package**	O
Mercedes-Benz Sprinter chassis		
Mercedes-Benz Sprinter with technically permissible gross vehicle weight of 3,500 kg with Malibu special light AL-KO low frame	Mercedes-Benz Sprinter with technically permissible gross vehicle weight of **4,200 kg** with **AL-KO Malibu special low frame**	-

Malibu Motorhomes

Fiat Ducato and Mercedes-Benz Sprinter chassis options

We offer maximum variety across all layouts: Alongside the two different weight and equipment variants – lightweight 3.5 t and comfort 4.2 t – you can also choose your chassis: Fiat Ducato or Mercedes-Benz Sprinter.

To make it as easy as possible for you to choose the right model, here are the main distinguishing features of the chassis.

Whichever one you choose: With your new Malibu motorhome, you will enjoy the highest standards of comfort, quality and safety on every journey.

MORE OF EVERYTHING AS STANDARD

CLASS-LEADING STORAGE SPACE

- Double floor with huge, heated storage space, usable height up to 55.5 cm, external access via several large hatches (depending on model)
- Central through-loading compartment (interior height 22 cm) with extra-low double floor storage compartment (usable height 46 cm) depending on model

HEATING AND AIR CONDITIONING TECHNOLOGY

- Enjoy a comfortable interior climate all year round thanks to a fully insulated double floor with the feel of underfloor heating, as well as highly efficient insulation thanks to a high-quality RTM rigid foam insulation core.
- Heated dashboard front
- Targeted heating of technical components

OUTSTANDING DRIVER'S CAB VISIBILITY CONCEPT (A-CLASS)

- Dashboard slopes steeply towards front, low panoramic windscreen for early view of road surface
- Top test result for view of road surface after just 2.77 m in Fiat Ducato

HIGH-QUALITY FURNITURE DESIGN

- Double connection technology: Furniture is screwed together and mortised
- High-quality and robust metal hinges

PREMIUM BODY CONSTRUCTION

- Chassis with ultra-sturdy body connections via form-fitted and bonded frame members (roof-wall / floor-wall)
- Protection from hailstones, stone chippings and moisture thanks to GRP on roof and underside of floor
- Exclusive side wall / curved roof
- 10-year water ingress warranty as standard
- Easy to repair in the event of damage thanks to segmented side skirts

Soundproofing for engine compartment	X	X
Aguti driver's and passenger's comfort seats in living area material, with integrated seat belts, rotatable, padded armrests	X	X
Dashboard with practical sideboard and bottle holder	X	X
“Malibu best view” heated and adjustable bus mirror with black housing	X	X
Double floor storage compartment		
Usable height up to 48 cm (Fiat Ducato) or 55.5 cm (Mercedes-Benz Sprinter)	X	X
Through-loading storage compartment with lighting and heating	X	X
Outside access via several large hatches	X	X
Interior access via hinged side bench seat in L-shaped lounge seating area (not in 441 KB-LE model), as well as via large living area floor hatch in entrance and kitchen area	X	X
Central through-loading storage compartment (internal height Fiat Ducato 17 cm, Mercedes-Benz Sprinter 22 cm) with lowered double floor storage compartment (usable height: Fiat Ducato 39 cm, Mercedes-Benz Sprinter 46 cm)	X	X
Heated scooter garage		
Scooter garage load capacity up to 350 kg (Mercedes-Benz Sprinter) or 250 kg (Fiat Ducato)	X	X
Large garage door on passenger side, additional door on driver's side (LHD)	X	X
Garage floor with GRP on top and bottom, anti-slip coating	X	X
With all-around frost-proof insulation and heating	X	X
Lashing system via aluminium frame member, including eight lashing eyes	X	X
Interior design		
“Nomos” style range: Modern walnut furniture finish with overhead cabinet fronts in matt white, with dark accents in matt grey	X	X
Living area		
L-shaped lounge seating area with side bench seat (441 KB-LE model with pull-out side seat), two three-point seat belts in direction of travel including neck supports	X	X
Seat upholstery with multilayer premium foam core and back support function	X	X

Malibu A-Class

	light-weight 3.5t	comfort 4.2t
360° living area table, rotatable using a foot pedal and movable in two directions	X	X
Wall cladding with slat decor behind side seat (not 441 LE model)	X	X
Curtain system including removable decorative curtain	X	X
Swivel-out shoe cabinet with storage system in bench seat base, including LED accent light	X	X
Double connection technology: furniture parts screwed together and mortised	X	X
Hatch closer with soft closing mechanism	X	X
Kitchen		
Kitchen counter as visual room divider and additional worktop (450 RB-LE, 470 RB-LE "K", 480 RB-QB "K" models)	X	X
Kitchen work surface with scratch-proof slate-effect finish, illuminated from underneath with LED accent light	X	X
Three-ring hob with divided glass cover (one-piece in 441 KB-LE, 430 KB-LE models) with robust enamelled wire pan support and stainless steel base	X	-
Three-ring hob with divided glass cover (one-piece in 441 KB-LE, 430 KB-LE models) with robust cast-iron trivet and glass base	-	X
Slim tower refrigerator with door opening on both sides, with separate freezer compartment, automatic energy source selection 12 V / 230 V / gas mode	X	X
Kitchen units with deep drawers and wooden cutlery tray	X	X
Separate waste bins in separate hygiene area	X	X
"Easy glide" roller-mounted drawers with soft-close mechanism	X	X
Kitchen rear wall in cream decorative glass	X	X
Round stainless steel sink embedded in work surface with multifunctional sink cover including wall holder for worktop extension	X	X
Mixer tap in metal design at practical pot height	X	X
Bathroom | Dressing room		
Dressing room & room partitioning		
Dressing room with lockable washroom door or luxury bathroom door to living area	X	X
Solid wood sliding door in front of sleeping area (450 RB-LE, 470 RB-LE "K" models)	-	X
Pull-out TV wall and room divider in front of sleeping area (480 RB-QB "K" model)	-	X
Floor-to-ceiling wardrobe with two clothes rails and shelf (470 RB-LE "K" model)	X	X
Vario swivelling bathroom (441 RB-LE model)		
Interior swivelling wall with large mirror and washbasin	X	X
"One level" step-free shower access	X	X
Height-adjustable, hand-held shower head on chrome rail	X	X
Mini Heki skylight	X	X
Shower area with sectional shower door which also functions as privacy screen when dressing room is open	X	X
Wooden toilet lid	X	X
Combined bathroom with separable round shower (430 KB-LE models)		
Towel rail above round shower	X	X
Height-adjustable, hand-held shower head on chrome rail	X	X
Mini Heki skylight	X	X
Washbasin base cabinet unit with toilet roll holder, mirrored storage cabinet	X	X
Luxury bathroom (450 RB-LE, 470 RB-LE "K", 480 RB-QB "K" models)		
"One level" step-free shower access	X	X
Towel rail above round shower	X	X
Shower floor inlay in living area floor design, removable for showering	X	X
Height-adjustable, hand-held shower head on chrome rail	X	X
Mini Heki skylight in washroom	X	X
Roof light in shower room	X	X
Washbasin base cabinet with toilet roll holder, countertop washbasin and mirror	X	-
Washbasin base cabinet with toilet roll holder, countertop washbasin, mirrored storage cabinet and mirror with indirect LED lighting	-	X

Malibu A-Class

	light-weight 3.5t	comfort 4.2t
Sleeping		
Drop-down bed above cab area		
Slatted frame and high-quality mattress	X	X
Extra-low positioning of the bed: access via side seat	X	X
Wobble-free support when in sleeping position, bookshelf and LED spotlights	X	X
Partition curtain between drop-down bed and living area	X	X
Fixed beds in rear area		
7-zone, high-quality cold foam mattress	X	X
Two-part heated and ventilated slatted frame	X	X
Mini Heki skylight	X	X
Raisable head section	X	X
Lengthways single beds		
Fixed access steps	X	-
Pull access steps including extended sleeping area with additional cushion	-	X
All-around overhead storage cabinets	X	X
Wardrobes beneath the beds, lowered into the double floor, with lift function and divided mattress (model-dependent)	X	X
On-board technology		
Water		
Fresh water and waste water tank in heated double floor, cleaning opening in scooter garage or via living area floor hatch	X	X
Central water drain in central double floor	X	X
Low-maintenance pressurised water pump system	X	X
Gas		
External gas bottle compartment in low position (450 RB-LE, 470 RB-LE “K”, 480 RB-QB “K” models)	X	X
Gas bottle compartment in rear area, accessible via separate gas compartment door (441 KB-LE, 430 KB-LE models)	X	X
Holds 2 x 11 kg gas bottles	X	X
Main gas taps in kitchen area	X	X
Electrical system		
Malibu Connect Truma iNet-X including colour display with “Touch” function, Bluetooth and app control [62)]	X	X
18 A automatic charger, electronic control, automatic cut-off when voltage too low, including starter battery charging function	X	X
Electrical centre beneath driver's seat (Fiat Ducato) or in double floor behind driver's seat (Mercedes-Benz Sprinter)	X	X
1 x 80 Ah gel battery beneath driver's seat (Fiat Ducato) or passenger's seat (Mercedes-Benz Sprinter)	X	X
230 V sockets in kitchen, bathroom and entrance area	X	X
12 V socket in cab	X	X
Double USB socket in cab	X	X
Living area lighting		
Numerous LED spotlights above L-shaped lounge seating area and in rear bed area	X	X
Light control via main switch in entrance area	X	X
Work light and ambient lighting can be switched on separately	X	X
Heating technology		
Hot air vents in living area, double floor, scooter garage and habitation door entrance	X	X
Dashboard with targeted heating with panel heating effect	X	X
Hot air vents in cab, dashboard front, entry door	X	X
Underfloor heating effect due to heated double floor with heat storage	X	X

Malibu A-Class

MORE OF EVERYTHING AS STANDARD

CLASS-LEADING STORAGE SPACE

- Double floor with huge, heated storage space, usable height up to 55.5 cm, external access via several large hatches (depending on model)
- Central through-loading compartment (interior height 22 cm) with extra-low double floor storage compartment (usable height 46 cm) depending on model

PREMIUM BODY CONSTRUCTION

- Chassis with ultra-sturdy body connections via form-fitted and bonded frame members (roof-wall / floor-wall)
- Protection from hailstones, stone chippings and moisture thanks to GRP on roof and underside of floor
- Exclusive side wall / curved roof
- 10-year water ingress warranty as standard
- Easy to repair in the event of damage thanks to segmented side skirts

HEATING AND AIR CONDITIONING TECHNOLOGY

- Enjoy a comfortable interior climate all year round thanks to a fully insulated double floor with the feel of underfloor heating, as well as highly efficient insulation thanks to a high-quality RTM rigid foam insulation core.
- Targeted heating of technical components

HIGH-QUALITY FURNITURE DESIGN

- Double connection technology: Furniture is screwed together and mortised
- High-quality and robust metal hinges

Malibu body construction		
10-year water ingress warranty	X	X
Wood-free body construction with GRP roof and floor covering	X	X
Roof/wall connection via curved roof and frame member	X	X
Roof rail system at side with rainwater drainage	X	X
Side walls and rear wall with aluminium exterior	X	X
RTM hard foam insulating core in roof, floor and side wall	X	X
Floor connected to side wall via aluminium frame members glued over their entire surface	X	X
Total wall and roof thickness, 33 mm	X	X
Exterior hatches made from original side wall material “Malibu Isoplus”	X	X
Internal/external hatch seal, outer seal as water spray protection	X	X
Exterior hatches and XL habitation door with internal hinges	X	X
Segmented side skirts made from aluminium profile	X	X
Dynamic design rear, segmented with separate rear bumper	X	X
Seitz S4 habitation window, double frame with insulated glazing and no thermal bridge, insect screen blind and pleated blackout blind	X	X
XL habitation door with door limiter and door window	X	X
LED exterior light above habitation door with rain deflector	X	X
Electrically extending entrance step for XL habitation door with warning buzzer	X	X
Cab concept		
Electrically adjustable and heated exterior rear view mirrors	X	X
T-pod in GRP	X	X
Driver's and passenger's comfort seats in living area material, rotatable, with padded armrests (Fiat Ducato)	X	X
Aguti driver's and passenger's comfort seats in living area material, rotatable, padded armrests (Mercedes-Benz Sprinter)	X	X
Large, all-round overhead storage cabinets with front flap above cab	X	X

	light-weight 3.5t	comfort 4.2t
Double floor storage compartment		
Usable height up to 48 cm (Fiat Ducato) or 55.5 cm (Mercedes-Benz Sprinter)	X	X
Through-loading storage compartment with lighting and heating	X	X
Outside access via several large hatches	X	X
Interior access via the L-shaped lounge seating area, fold-up side bench seat, and via the large living area floor hatches in the entrance and kitchen area	X	X
Central through-loading storage compartment (internal height Fiat Ducato 17 cm, Mercedes-Benz Sprinter 22 cm) with lowered double floor storage compartment (usable height: Fiat Ducato 39 cm, Mercedes-Benz Sprinter 46 cm)	X	X
Heated scooter garage		
Scooter garage load capacity up to 350 kg (Mercedes-Benz Sprinter) or 250 kg (Fiat Ducato)	X	X
Large garage door on passenger side, additional door on driver's side (LHD)	X	X
Garage floor with GRP on top and bottom, anti-slip coating	X	X
With all-around frost-proof insulation and heating	X	X
Lashing system via aluminium frame member, including eight lashing eyes	X	X
Interior design		
"Nomos" style range: Modern walnut furniture finish with overhead cabinet fronts in matt white, with dark accents in matt grey	X	X
Living area		
L-shaped lounge seating area with side bench seat, with two three-point seat belts in direction of travel including headrests	X	X
Seat upholstery with multilayer premium foam core and back support function	X	X
360° living area table, rotatable using a foot pedal and movable in two directions	X	X
Wall cladding with slat decor behind side seat	X	X
Curtain system including removable decorative curtain	X	X
Swivel-out shoe cabinet with storage system in bench seat base, including LED accent light	X	X
Double connection technology: furniture parts screwed together and mortised	X	X
Hatch closer with soft closing mechanism	X	X
Kitchen		
Kitchen counter as visual room divider and additional worktop (450 RB-LE, 470 RB-LE "K", 480 RB-QB "K" models)	X	X
Kitchen work surface with scratch-proof slate-effect finish, illuminated from underneath with LED accent light	X	X
Three-ring hob with divided glass cover (one-piece in 430 KB-LE model) with robust enamelled wire pan support and stainless steel base	X	-
Three-ring hob with divided glass cover (one-piece in 430 KB-LE model) with robust cast-iron trivet and glass base	-	X
Slim tower refrigerator with door opening on both sides, with separate freezer compartment, automatic energy source selection 12 V / 230 V / gas mode	X	X
Kitchen units with deep drawers and wooden cutlery tray	X	X
Separate waste bins in separate hygiene area	X	X
"Easy glide" roller-mounted drawers with soft-close mechanism	X	X
Kitchen rear wall in cream decorative glass	X	X
Round stainless steel sink embedded in work surface with multifunctional sink cover including wall holder for worktop extension	X	X
Mixer tap in metal design at practical pot height	X	X
Bathroom | Dressing room		
Dressing room & room partitioning		
Dressing room with lockable washroom door or luxury bathroom door to living area	X	X
Solid wood sliding door in front of sleeping area (450 RB-LE, 470 RB-LE "K" models)	-	X
Pull-out TV wall and room divider in front of sleeping area (480 RB-QB "K" model)	-	X
Floor-to-ceiling wardrobe with two clothes rails and shelf (470 RB-LE "K" model)	X	X
Combined bathroom with separable round shower (430 KB-LE models)		
Towel rail above round shower	X	X
Height-adjustable, hand-held shower head on chrome rail	X	X
Mini Heki skylight	X	X
Washbasin base cabinet unit with toilet roll holder, mirrored storage cabinet	X	X

	light-weight 3.5t	comfort 4.2t
Luxury bathroom (450 RB-LE, 470 RB-LE "K", 480 RB-QB "K" models)		
"One level" step-free shower access	X	X
Towel rail above round shower	X	X
Shower floor inlay in living area floor design, removable for showering	X	X
Height-adjustable, hand-held shower head on chrome rail	X	X
Mini Heki skylight in washroom	X	X
Roof light in shower room	X	X
Washbasin base cabinet with toilet roll holder, countertop washbasin and mirror	X	-
Washbasin base cabinet with toilet roll holder, countertop washbasin, mirrored storage cabinet and mirror with indirect LED lighting	-	X
Sleeping		
Fixed beds in rear area		
7-zone, high-quality cold foam mattress	X	X
Two-part heated and ventilated slatted frame	X	X
Mini Heki skylight	X	X
Raisable head section	X	X
Lengthways single beds		
Fixed access steps	X	-
Pull access steps including extended sleeping area with additional cushion	-	X
All-around overhead storage cabinets	X	X
Wardrobes beneath the beds, lowered into the double floor, with lift function and divided mattress (model-dependent)	X	X
On-board technology		
Water		
Fresh water and waste water tank in heated double floor, cleaning opening in scooter garage or via living area floor hatch	X	X
Central water drain in central double floor	X	X
Low-maintenance pressurised water pump system	X	X
Gas		
External gas bottle compartment in low position (450 RB-LE, 470 RB-LE "K", 480 RB-QB "K" models)	X	X
Gas bottle compartment in rear area, accessible via separate gas compartment door (430 KB-LE model)	X	X
Holds 2 x 11 kg gas bottles	X	X
Main gas taps in kitchen area	X	X
Electrical system		
Malibu Connect Truma iNet-X including colour display with "Touch" function, Bluetooth and app control [62)]	X	X
18 A automatic charger, electronic control, automatic cut-off when voltage too low, including starter battery charging function	X	X
Electrical centre beneath driver's seat (Fiat Ducato) or in double floor behind driver's seat (Mercedes-Benz Sprinter)	X	X
1 x 80 Ah gel battery beneath driver's seat (Fiat Ducato) or passenger's seat (Mercedes-Benz Sprinter)	X	X
230 V sockets in kitchen, bathroom and entrance area	X	X
12 V socket in cab	X	X
Double USB socket in cab	X	X
Living area lighting		
Numerous LED spotlights above L-shaped lounge seating area and in rear bed area	X	X
Light control via main switch in entrance area	X	X
Work light and ambient lighting can be switched on separately	X	X
Heating technology		
Hot air vents in living area, double floor, scooter garage and habitation door entrance	X	X
Underfloor heating effect due to heated double floor with heat storage	X	X

CLASS-LEADING STORAGE SPACE

- Double floor with huge, heated storage space, usable height up to 55.5 cm, external access via several large hatches (depending on model)
- Central through-loading compartment (interior height 22 cm) with extra-low double floor storage compartment (usable height 46 cm) depending on model

HEATING AND AIR CONDITIONING TECHNOLOGY

- Enjoy a comfortable interior climate all year round thanks to a fully insulated double floor with the feel of underfloor heating, as well as highly efficient insulation thanks to a high-quality RTM rigid foam insulation core.
- Heated dashboard front
- Targeted heating of technical components

OUTSTANDING DRIVER'S CAB VISIBILITY CONCEPT (A-CLASS)

- Dashboard slopes steeply towards front, low panoramic windscreen for early view of road surface
- Top test result for view of road surface after just 2.77 m in Fiat Ducato

HIGH-QUALITY FURNITURE DESIGN

- Double connection technology: Furniture is screwed together and mortised
- High-quality and robust metal hinges

PREMIUM BODY CONSTRUCTION

- Chassis with ultra-sturdy body connections via form-fitted and bonded frame members (roof-wall / floor-wall)
- Protection from hailstones, stone chippings and moisture thanks to GRP on roof and underside of floor
- Exclusive side wall / curved roof
- 10-year water ingress warranty as standard
- Easy to repair in the event of damage thanks to segmented side skirts

Chassis

Fiat Ducato flat frame
Engine: 2.2 l diesel Multijet 3 with Adblue (19 l), 160 hp / 120 kW, 4 cylinders, 400 Nm, heavy-duty, Euro VI e, 8-speed torque converter automatic transmission, front-wheel drive
All-weather tyres (M+S)
16-inch steel wheels
60-litre fuel tank
LED daytime running lights
Dipped headlights with LED technology
Fog lights
Mud flaps on front axle
Manual air conditioning system
Glove compartment
Cup holder
Fix & Go breakdown kit

Malibu A-Class Edition+

Fiat Ducato assistance and safety systems
Start / Stop system
Driver / passenger airbag [19)]
Side Wind Assist, cruise control, ABS, ESP, ASR, electronic immobiliser, Hillholder, Hill Descent Control, Traction Plus, trailer stability control, collision braking system
Emergency Lane Keeping Assist
Emergency Brake Assist
Driver fatigue warning
Intelligent speed assistant
Tyre pressure monitoring system (indirect)
Preparation for installing an alcohol-sensitive immobiliser
Mercedes-Benz Sprinter with AL-KO low frame
Engine: 2.0 l diesel with Adblue (22 l), 150 hp / 110 kW, 4 cylinders, 330 Nm, Euro VI E, front-wheel drive
9G-TRONIC automatic transmission including hold function
All-weather tyres (M+S)
16-inch steel wheels
65-litre fuel tank (Mercedes-Benz)
LED daytime running lights
Daytime running lights integrated in headlights
Fog lights with dynamic cornering lights
Mud flaps on front and rear axle
Mud flaps on rear axle
Fleece battery 12 V / 92 Ah
Electric hot air auxiliary heating in cab
Hinged lid for storage compartment
Driver and passenger cup holders, glove compartment on passenger side (LHD)
Fix & Go breakdown kit
Mercedes-Benz Sprinter assistance and safety systems
Start / Stop system
Keyless Start including Start/Stop button
Driver / passenger airbag [11)]
Automatic driving light control
Side Wind Assist, Hillholder, ABS, ASR, EBV, ESP
Mercedes-Benz emergency call system, breakdown management
Emergency Lane Keeping Assist
Emergency Brake Assist
Driver fatigue warning including driver-facing camera
Intelligent speed assistant
Tyre pressure sensors (direct)
Preparation for installing an alcohol-sensitive immobiliser

Malibu A-Class Edition+

Malibu body construction

10-year water ingress warranty
Wood-free body construction with GRP roof and floor covering
Roof/wall connection via curved roof and frame member
Roof rail system at side with rainwater drainage
Side walls and rear wall with aluminium exterior
RTM hard foam insulating core in roof, floor and side wall
Floor connected to side wall via aluminium frame members glued over their entire surface
Total wall and roof thickness, 33 mm
Exterior hatches made from original side wall material “Malibu Isoplus”
Internal/external hatch seal, outer seal as water spray protection
Exterior hatches and habitation door with internal hinges
Fuel tank flap flush-mounted in side wall
Segmented side skirts made from aluminium profile
Dynamic design rear
Seitz S4 habitation window, double frame with insulated glazing and no thermal bridge, insect screen blind and pleated blackout blind
Habitation door with door limiter and door window
LED exterior light above habitation door with rain deflector
Electrically extending entrance step for habitation door with warning buzzer

Cab concept

Dashboard sloping steeply towards front (view of road surface in Fiat Ducato 2.77 m, in Mercedes-Benz Sprinter 3.77 m)
Front mask in GRP, with double-shell insulation
Cab door with security double locking system, electric window regulator, rain gutter
Soundproofing for engine compartment
Aguti driver's and passenger's comfort seats in living area material, with integrated seat belts, rotatable, padded armrests
Dashboard with practical sideboard and bottle holder
“Malibu best view” heated and adjustable bus mirror with black housing

Double floor storage compartment

Usable height up to 48 cm (Fiat Ducato) or 55.5 cm (Mercedes-Benz Sprinter)
Through-loading storage compartment with lighting and heating
Outside access via several large hatches
Interior access via the L-shaped lounge seating area, fold-up side bench seat, and via the large living area floor hatches in the entrance and kitchen area
Central through-loading storage compartment (internal height Fiat Ducato 17 cm, Mercedes-Benz Sprinter 22 cm) with lowered double floor storage compartment (usable height: Fiat Ducato 39 cm, Mercedes-Benz Sprinter 46 cm)

Heated scooter garage

Scooter garage load capacity up to 350 kg (Mercedes-Benz Sprinter) or 250 kg (Fiat Ducato)
Large garage door on passenger side, additional door on driver's side (LHD)
Garage floor with GRP on top and bottom, anti-slip coating
With all-around frost-proof insulation and heating
Lashing system via aluminium frame member, including eight lashing eyes

Interior design

“Bellagio” style range: Fine cherry furniture finish with overhead cabinet doors in bicolour appearance with high-gloss ivory

Malibu A-Class Edition+

Living area

L-shaped lounge seating area with side bench seat, with two three-point seat belts in direction of travel including headrests
Seat upholstery with multilayer premium foam core and back support function
360° living area table, rotatable using a foot pedal and movable in two directions
Wall cladding with slat decor behind side seat
Curtain system including removable decorative curtain
Swivel-out shoe cabinet with storage system in bench seat base, including LED accent light
Double connection technology: furniture parts screwed together and mortised
Hatch closer with soft closing mechanism

Kitchen

Kitchen counter as visual room divider and additional worktop
Kitchen work surface with scratch-proof slate-effect finish, illuminated from underneath with LED accent light
Large refrigerator with door opening on both sides, separate freezer compartment, automatic energy source selection 12 V / 230 V / gas mode
Kitchen units with deep drawers and wooden cutlery tray
Separate waste bins in separate hygiene area
“Easy glide” roller-mounted drawers with soft-close mechanism
Kitchen rear wall in cream decorative glass
Round stainless steel sink embedded in work surface with multifunctional sink cover including wall holder for worktop extension
Mixer tap in metal design at practical pot height

Bathroom | Dressing room

Dressing room & room partitioning

- Dressing room with lockable luxury bathroom door to living area
- Solid wood sliding door in front of bedroom

luxury bathroom

- “One level” step-free shower access
- Towel rail above round shower
- Shower floor inlay in living area floor design, removable for showering
- Height-adjustable, hand-held shower head on chrome rail
- Mini Heki skylight in washroom
- Roof light in shower room
- Washroom with modern, countertop washbasin, large wall mirror, and washbasin base cabinet including toilet roll holder

Sleeping

Drop-down bed above cab area

- Slatted frame and high-quality mattress
- Extra-low positioning of the bed: access via side seat
- Wobble-free support when in sleeping position, bookshelf and LED spotlights
- Partition curtain between drop-down bed and living area

Fixed beds in rear area

- 7-zone, high-quality cold foam mattress
- Two-part heated and ventilated slatted frame
- Mini Heki skylight
- Raisable head section

Lengthways single beds

- Pull access steps including extended sleeping area with additional cushion
- All-around overhead storage cabinets
- Wardrobes beneath the beds, lowered into the double floor, with lift function and divided mattress

Malibu A-Class Edition+

On-board technology

Water

- Fresh water and waste water tank in heated double floor, cleaning opening in scooter garage or via living area floor hatch
- Central water drain in central double floor
- Low-maintenance pressurised water pump system

Gas

- External gas bottle compartment in low position
- Holds 2 x 11 kg gas bottles
- Main gas taps in kitchen area

Electrical system

- Malibu Connect Truma iNet-X including colour display with “Touch” function, Bluetooth and app control [62)]
- 18 A automatic charger, electronic control, automatic cut-off when voltage too low, including starter battery charging function
- Electrical centre beneath driver's seat (Fiat Ducato) or in double floor behind driver's seat (Mercedes-Benz Sprinter)
- 1 x 80 Ah gel battery beneath driver's seat (Fiat Ducato) or passenger's seat (Mercedes-Benz Sprinter)
- 230 V sockets in kitchen, bathroom and entrance area
- 12 V socket in cab
- Double USB socket in cab

Living area lighting

- Numerous LED spotlights above L-shaped lounge seating area and in rear bed area
- Light control via main switch in entrance area
- Work light and ambient lighting can be switched on separately

Heating technology

- Hot air vents in living area, double floor, scooter garage and habitation door entrance
- Dashboard with targeted heating with panel heating effect (Malibu A-Class)
- Hot air vents in cab, dashboard front, entry door (Malibu A-Class)
- Underfloor heating effect due to heated double floor with heat storage

Malibu A-Class Edition+

Discover the I 490 RB-LE Edition+ special edition model with extensive equipment – for those who expect more.
All available packages are included as standard – for a fully equipped vehicle that leaves nothing to be desired.

Fiat Ducato flat frame

- Malibu wheel trims
- Radiator grille in high-gloss black
- Charge booster [25)]
- 90-litre fuel tank
- Cab comfort seats with tilt and height adjustment (front / rear)
- Wiring for radio with roof aerial with DAB+, speakers (4x), DVB-T2 reception [38)]
- Fiat 10.1" multimedia system including sat nav, motorhome route guidance and DAB+
- Faux leather steering wheel and gear lever knob
- Premium dashboard: Chrome ventilation grilles
- Fiat 16-inch alloy wheels for f40 heavy chassis in conjunction with 9G torque converter automatic transmission
- Multifunctional steering wheel (radio remote control via control buttons)
- Automatic air conditioning in the cab [1)]
- Inductive mobile phone charging tray
- Digital instrument cluster with colour display in dashboard
- Electric handbrake
- Front headlights with LED technology

Mercedes-Benz Sprinter with AL-KO low frame

- Wheel trims
- Cruise control
- Radiator grille in high-gloss black
- Pre-wiring (cable set) for habitation door central locking system
- Charge booster [25)]
- Electric handbrake
- Front axle with increased load bearing capacity
- Leather steering wheel with multifunctional buttons option (including leather gear stick for manual transmission)
- Instrument cluster with colour display
- Rain sensor
- 92-litre fuel tank
- Cab comfort seats with tilt and height adjustment (front / rear)
- Steering wheel with adjustable angle and height
- Wiring for radio with roof aerial with DAB+, speakers (4x), DVB-T2 reception [38)]
- MBUX 10.2" multimedia system including sat nav and DAB+ [57)]
- PSM module preliminary setup for pneumatic suspension
- Engine variant 170 hp / 125 kW, Euro VI E (only in conjunction with automatic transmission)
- 16-inch alloy wheels (black) with all-weather tyres
- THERMOTRONIC fully automatic air conditioning system
- DISTRONIC Active Distance Assist
- Dashboard and door trims in chrome
- Front headlights with LED technology

Habitation exterior

- Malibu rear lights with LED light strip
- Large garage door on driver's side (LHD)
- XL habitation door “premium two 2.0” (width 63 cm) with double locking, window and insect screen blind
- Central locking for XL habitation door “premium two 2.0” and cab door
- Midi Heki skylight above L-shaped lounge seating area
- Roof-mounted awning aluminium cassette, grey canvas, length: 5.0 m

Electrical system

- Dual USB-C socket in overhead storage cabinet above rear bed
- Socket package with additional sockets (3 x 230 V, 2 x dual USB-C)
- Pre-wiring for reversing camera
- Pre-wiring for solar energy system
- Pre-wiring for satellite system
- Pre-wiring for TV [52)]
- 150 Ah lithium-ion battery including battery computer and separate touchscreen
- Voltage transformer for 12 V to 230 V, 2,000 W, mains priority circuit [58)]

Gas | Water | Miscellaneous

- SOG toilet ventilation [53)]
- Waste water hose kit for convenient disposal
- Truma DuoControl CS [33)]
- Hot / cold outdoor shower in scooter garage on passenger side (LHD)

Kitchen | Appliances

- Capsule coffee machine with connector kit including pull-out system

Radio | Multimedia | TV | Satellite

- Reversing camera system with single lens and 7" colour monitor at side of dashboard
- 32" pull-out TV system in side bench seat
- 32" smart LED TV
- Additional TV connection in sleeping area, including connector kit

Interior

- “Bellagio” style range
- Pleated front blind with honeycomb-structure insulation and vertical operation; folding pleated blind on side windows
- Indirect ambient lighting in living area and kitchen with LED technology
- Sleeping environment & soft furnishings set: Decorative cushions, bed throw, fitted sheet set

Malibu A-Class Edition+

Please carefully read the legal information regarding vehicle weight on pages 2-5 before concluding the contract!

All driver assistance systems required under the GSR II Regulation (Regulation (EU) 2019/2144) are already included as standard - for significantly enhanced safety and full compliance with all statutory requirements.

Alternatively, you can scan the QR code to receive all key weight information!

Only available as comfort 4.2 t models!

- Digital instrument cluster with colour display in dashboard
- Electric handbrake
- Rain and light sensor
- Headlight Assist
- Active cruise control
- Fiat full LED headlights

Mercedes-Benz Sprinter with AL-KO low frame

- Wheel trims
- Cruise control
- Cab door central locking, electrically adjustable and heated exterior rear view mirrors, electric window regulator
- Pre-wiring (cable set) for habitation door central locking system
- Charge booster [25)]
- Electric handbrake
- Front axle with increased load bearing capacity
- Leather steering wheel with multifunctional buttons option (including leather gear stick for manual transmission)
- Steering wheel with adjustable angle and height
- Instrument cluster with colour display
- Rain sensor
- 92-litre fuel tank
- Cab comfort seats with tilt and height adjustment (front / rear)
- Wiring for radio with roof aerial with DAB+, speakers (4x), DVB-T2 reception [38)]
- MBUX 10.2" multimedia system including sat nav and DAB+ [57)]
- PSM module preliminary setup for pneumatic suspension
- Heat-insulating glass all around
- Engine variant 170 hp / 125 kW, Euro VI E (only in conjunction with automatic transmission)
- 16-inch alloy wheels (black) with all-weather tyres
- THERMOTRONIC fully automatic air conditioning system
- DISTRONIC Active Distance Assist
- Headlight Assist
- Dashboard and door trims in chrome
- High-performance LED headlights
- Fog lights with cornering lights Mercedes Coachbuilt

Habitation exterior

- Malibu rear lights with LED light strip
- Large garage door on driver's side (LHD)
- XL habitation door "premium two 2.0" (width 63 cm) with double locking, window and insect screen blind
- Central locking for XL habitation door "premium two 2.0"
- Midi Heki skylight above L-shaped lounge seating area
- Roof-mounted awning aluminium cassette, grey canvas, length: 4.5 m

Electrical system

- Dual USB-C socket in overhead storage cabinet above rear bed
- Socket package with additional sockets (3 x 230 V, 2 x dual USB-C)
- Pre-wiring for reversing camera
- Pre-wiring for solar energy system
- Pre-wiring for satellite system
- Pre-wiring for TV [52)]
- 150 Ah lithium-ion battery including battery computer and separate touchscreen

Gas | Water | Miscellaneous

- SOG toilet ventilation via roof flue [53)]
- Waste water hose kit for convenient disposal
- Truma DuoControl CS
- Hot / cold outdoor shower in scooter garage on passenger side (LHD)

Radio | Multimedia | TV | Satellite

- Reversing camera system with single lens [24)]
- 24" pull-out TV system in side bench seat [13)]
- 24" Smart LED TV [5)]
- Additional TV connection in sleeping area, including connector kit

Interior

- "Bellagio" style range
- Cab blind system: Pleated blind on side windows and windscreen [9)]
- Indirect ambient lighting in living area and kitchen with LED technology
- Sleeping environment & soft furnishings set: Decorative cushions, bed throw, fitted sheet set

Malibu Coachbuilt Edition+

Please carefully read the legal information regarding vehicle weight on pages 2-5 before concluding the contract!

All driver assistance systems required under the GSR II Regulation (Regulation (EU) 2019/2144) are already included as standard - for significantly enhanced safety and full compliance with all statutory requirements.

Alternatively, you can scan the QR code to receive all key weight information!

Only available as comfort 4.2 t models!

7) In accordance with EU Implementing Regulation No. 2021/535, the mass in running order corresponds to the (unladen) weight of the vehicle with factory-installed standard equipment (including lubricants, tools, tyre repair kit) plus driver (75 kg), 90% full fuel tank, fresh water tank when driving (20 l), 100% full aluminium gas bottle. The weight of additional equipment specified by the manufacturer is basically dependent on the mass in running order, and is reduced by installing additional equipment (equipment packages, special equipment). Please note that the actual weight which is specified in the Certificate of Conformity (CoC) is also a standard value. Since the mass in running order – as part of the actual weight – has a legally permissible tolerance of ± 5 %, the actual weight can deviate from the specified nominal value accordingly. Detailed information can be found on page 2, no. 2.
14) The maximum weight of additional equipment specified by the manufacturer must not be exceeded during the selection and configuration of your vehicle. The maximum weight for additional equipment specified by the manufacturer is intended to ensure that the legally prescribed so-called minimum payload is actually available for additional loading after the vehicle has been delivered by the manufacturer. This means that only a certain amount of additional equipment can be ordered and installed in the factory, in order to leave a sufficient weight allowance available for luggage and other accessories (the so-called payload) without exceeding the technically permissible gross vehicle weight. Detailed information can be found on page 4, no. 5.
22) The specification of the maximum permissible number of seats refers to the respective vehicle weight in a standard set-up without additional equipment, and specifies the maximum possible number of persons who can be seated while driving. The number of seats also depends on the weight and the axle load. It can therefore be reduced if additional equipment (equipment packages, special equipment) is installed, or it may only be achieved if the vehicle load is increased. With additional approved seats (c-tourer only in conjunction with increased load option) the minimum payload per person increases by 85 kg, and the maximum weight for additional equipment reduces at the same time. Detailed information can be found on page 3, no. 3. With the optional 5th seat, the double floor through-loading storage compartment is slightly restricted, and the upholstery is not covered in the same fabric as the living area material.
23) The technically permissible gross vehicle weight describes the layout-based maximum permissible weight specified by the manufacturer that your motorhome is allowed to weigh when loaded (e.g. 3,500 kg, 4,500 kg). The technically permissible gross vehicle weight (e.g. 3,500 kg) must not be exceeded under any circumstances while driving. Detailed information can be found on page 2, no. 1.
27) The maximum towing capacity depends on the total towing weight of the vehicle: Fiat Ducato 6,000 kg; Mercedes-Benz Sprinter 5,880 kg
33) Truma DuoControl CS with crash sensor, automatic changeover and de-icing function option. In the basic configuration when calculating the weight in a roadworthy condition, only one 100% full aluminium gas bottle at 16.5 kg is taken into consideration. The "DuoControl CS with crash sensor" (automatic changeover and de-icing function), which is available as an option or in the equipment package, can in principle also be operated with one connected gas bottle. When connecting and using a second gas bottle, the remaining load capacity of your vehicle will be reduced by 16.5 kg if an aluminium gas bottle is used. Steel gas bottles are around 5 kg heavier.

General

1) In the event of unfavourable conditions, manual readjustment of the air conditioning system may be necessary.
3) Truma Combi 6E option not possible in conjunction with Alde hot water heating option.
4) The optional lithium-ion batteries replace the standard gel battery/batteries. Battery status indicator accessible via free app and touch display.
5) Smart TV with receiver and DVB-T2 tuner (including USB, HDMI, full HD).
6) The Midi-Heki above the seating area is omitted if the electric central drop-down bed option is selected. Headroom beneath central drop-down bed: 1.84 m.
8) The foot pedal for adjusting the table is omitted in the option with the lounge seating area with a lowerable table top which can be converted into a sleeping berth. The table adjustment lever is beneath the table top in this model.
9) Cut-out in the cab blind system around the installed camera to accommodate the camera housing (top centre).
10) Mini Heki skylight above kitchen area not possible in conjunction with the electric roof light fan option.
11) Mounting depends on available roof area; if necessary, standard components may be omitted or installed in a different location. Height of Teleco structure on roof approx. 130 mm Teleco Flatsat Classic 85 satellite system not possible in conjunction with pre-wiring for TV connection in rear bed area.
12) Radio/moniceiver with touchscreen in driver's cab, Bluetooth and USB interface for the connection of portable devices.
13) Including connector kit: coaxial cable, antenna socket, 12 V socket. Additional TV connection or pre-wiring for TV connection in rear not possible in conjunction with Teleco Flatsat Classic 85 satellite system.
15) The load-bearing capacity in the scooter garage is reduced by 100 kg if the pedelec scooter garage option is selected.
16) Total vehicle length is the measurement between the front skirt and the rear end.
17) The total vehicle width is the measurement from exterior wall to exterior wall (wheel arches on the side, approx. + 70 mm).
18) Height changes depending on installation of certain optional extras. The vehicle height with Fiat light/heavy chassis can differ by 50 mm.
19) Child seats with restraint systems must not be installed on the passenger seat.
20) Position of 32" LED flat screen TV above L-shaped lounge seating area.
21) The specified fresh water tank volume includes the volume of the boiler.
24) Reversing camera system in conjunction with Fiat 10.1" display including digital navigation instead of analogue.
25) The charge booster is incorporated between the alternator and the starter and also the habitation battery, and ensures that the alternator generates power until the batteries are charged.
26) In Fiat Ducato f35 only possible in conjunction with 16-inch steel wheels or 16-inch alloy wheels.
28) Drawers omitted in kitchen base cabinet (quantity depends on model). Dimensions of oven in kitchen unit (in mm). 441 KB-LE, 430 KB-LE models: height 307 x width 527 x depth 450 RB-LE, 470 RB-LE "K", 480 RB-QB "K", 490 RB-LE layouts: height 445 x width 445 x depth 490. Not possible in conjunction with Tec-Tower.
29) With model T 490 LE, the Alde hot water heating option is not possible in conjunction with the central drop-down bed option and vice versa.
30) Position: lounge seating area (230 V, USB), sleeping area rear overhead cabinet (230 V, USB), scooter garage (230 V).
31) Alde heat exchanger for heating the living area using engine heat while driving, including engine pre-heating function.
32) Malibu table and chair set option, consisting of two camping chairs including Malibu logo and a table.
34) Push-in and transport system option for 2 pedelecs/e-bikes, only in conjunction with pedelec scooter garage.
35) "Skyview" skylight with designer ceiling panel option, including indirect LED lighting above driver's cab. Not possible in conjunction with the central drop-down bed option.
36) Fiat Ducato f40 option, including 16-inch steel wheels.
37) 2.2 l, 4-cylinder engine. 140 hp engine: 350 / 380 Nm. 160 hp engine: 380 / 400 Nm. 180 hp engine: 380/450 Nm.
38) Speaker in driver's cab (2x) and L-shaped lounge seating area (2x).
39) Only available in conjunction with the Chassis Plus package.
40) Tec-Tower fridge freezer 153 l option, with door opening at both sides, separate freezer compartment and gas oven. Not possible in conjunction with gas oven in kitchen base cabinet.
41) Malibu sleeping environments & décor set, consisting of one or three decorative cushions (depending on model), a jacquard bed throw with woven Malibu logo and a fitted sheet set to match the respective layout.
42) Reversing camera system with single lens and 7" colour monitor integrated in side of dashboard.
43) It is recommended to order the gas filter in conjunction with the Truma DuoControl CS option, since the manufacturer of the Truma DuoControl invalidates the warranty if the gas pressure regulator and valves become defective or damaged because of oil or other foreign materials in the liquid gas.
44) The level sensor is attached magnetically to the base of the bottle. The fill level is measured by ultrasound and displayed on the panel/app via Bluetooth connection. An additional clamping plate is required for use with an aluminium gas bottle. (Not included in the scope of delivery.) The sensor is not suitable for plastic gas bottles, refillable gas bottles, gas tanks or butane gas bottles. The scope of delivery includes one sensor.
45) 24" LED flat screen TV including TV bracket, speakers and integrated contact switch wirelessly integrated in TV wall for sleeping area (only in conjunction with connector kit).
46) Tow bar option not possible in conjunction with pedelec scooter garage option.
47) State-of-the-art multimedia system with 10.1" display, Bluetooth connectivity with audio streaming and hands-free function, smartphone integration via Android Auto or Apple CarPlay, USB interface for connecting portable devices.
48) Digital instrument cluster with colour display for optimal pairing with the Fiat 10.1" multimedia system for display of 3D navigation maps and driver assistance systems.
49) LED daytime running lights option not possible in conjunction with Fiat full LED headlights, since this is already included.
50) The collision braking system automatically triggers braking in the event of a collision in order to prevent or lessen the effects of a possible secondary collision.
51) If the package is selected, in order to reduce the weight of the vehicle, individual constituents of the series production configuration or the Basic Plus package are replaced (fuel tank 60 l / 65 l) or removed (SOG toilet ventilation, waste water hose kit, solar energy system wiring). The replacement or removal of individual options has been taken into consideration and offset in the package price.
52) TV pre-wiring in 450 RB-LE, 470 RB-LE "K", 480 RB-QB "K" layouts only in conjunction with 32" TV wall bracket, 180° rotatable in entrance area.
53) SOG toilet ventilation via roof flue. For 450 RB-LE, 470 RB-LE "K", 480 RB-QB "K" layouts, SOG toilet ventilation via floor vent.
54) Battery status display can be accessed via a free app with 18 A automatic charger. Cannot be combined with another lithium-ion battery.
55) With the option to omit the high-quality mattress for the drop-down bed, the vehicle weight can be reduced. The slatted frame is left in place and can be used as a shelf space.
56) Option recommended for Mercedes-Benz I models. If this option is not chosen, the passenger's seat in these models is around 45 mm lower than the driver's seat.
57) Multimedia system (Mercedes-Benz: MBUX 10.2" display; Fiat: 10.1" display), Bluetooth connectivity with audio streaming and hands-free function, Smartphone integration via Android Auto or Apple CarPlay, USB interface for connecting portable devices. Mercedes-Benz: Vehicle weights and vehicle dimensions can only be logged in the system via the MercedesMe app.
58) Voltage transformer only available in conjunction with 2nd habitation gel battery or lithium-ion battery.
59) Compulsory in conjunction with TV pre-wiring if Media package or SMART LED TV are not chosen.
60) ALDE hot water heating option for 450 RB-LE, 470 RB-LE "K" and 480 RB-QB "K" layouts not available in conjunction with central drop-down bed.
61) The router is designed for operation with two SIM cards. SIM cards are not included in the scope of delivery.
62) The following built-in appliances can be controlled: interior temperature, air conditioning/heating, hot water, interior lighting, water pump, multimedia, gas remote indication including EisEx, battery voltage display, fresh and waste water status.
63) The iNet X Connect remote module lets you use the iNet X app while you are on the move. Connected devices can be controlled conveniently from a distance and status information can be viewed without having to be near the vehicle. An eSIM is required for use and is already included in the scope of delivery.

- The price information shown includes the legally applicable rate of VAT at 20% and excludes shipping and transport costs.
- Some vehicles are shown with special equipment, which is available at extra cost.
- Some special equipment cannot be installed in all models. Your Malibu dealer will be happy to inform you about installation and technical details for your desired model.
- This information is subject to price, design and equipment modifications and also errors. The details relating to scope of delivery, appearance and performance comply with the status at the time of printing.
- If our suppliers change product designations during the season, we reserve the right to deliver a part type of equivalent value.
- Price, dimensions and weights subject to change. The current rate of VAT at the time of delivery shall be valid. All prices are non-binding recommended prices ex works. In the case of price adjustments by sub-contractors or chassis manufacturers, the prices will be modified accordingly.
- Mattress sizes can differ from the specified bed dimensions.
- The installation of optional extras can result in loss of storage space.
- Prices for optional extras apply to ex works installation (not retrofitting). These extras must be ordered in good time before the vehicle goes into production. For information on this, please contact your Malibu dealer directly.
- The mounting of solar energy and satellite systems depends on the available roof area.
- Any change to the factory condition of your vehicle can negatively affect driving quality and roadworthiness.
- Any structural alteration to the vehicle renders liability claims void. The same applies if the customer makes changes to the paintwork/colour of body components.
- Deviations from the textures and colours in the illustrations are permitted in as far as they are due to the nature of the materials used and/or are usual in the trade. The same applies to technical changes to the vehicle as long as the overall product quality remains the same or is improved, and the intended use is not affected.
- It is possible that inferior-quality clothing can leave marks on the seat covers. This means that the seat covers are discoloured or the dye from the fabrics rubs off. We do not accept any liability for this kind of discolouration.
- We recommend always using Malibu accessories and having them installed in our factory. We do not accept any liability for damage caused by products that are not approved by Malibu or by non-permitted modifications. This applies in particular to the installation of parts by workshops that are not authorised by Malibu. You should therefore always have repairs or retrofits carried out by authorised Malibu dealers and insist on genuine Malibu accessories.
- The water supply system complies with the state of the art in accordance with DIN 2001-2.

When this price list is published, all previous price lists lose their validity. Changes may occur during the model year after the editorial deadline for this printed document in July 2026. The manufacturer reserves the right to make structural and design changes that become necessary, provided that they are in the interest of technical progress and are reasonable for the customer, plus changes to equipment, differences in colour combinations or individual colour shades, material quality differences and changes to the scope of delivery on the part of the manufacturer. This also applies to colour differences on the chassis, insofar as they are a result of changes made by the chassis manufacturer. Please consult your dealer for detailed advice concerning the status of the current product or series.

The information relating to the scope of delivery, appearance, performance, dimensions and weights of the vehicles (differences within the scope of the factory tolerances (+/- 5% max.) are possible and permissible) corresponds to the available knowledge at the time of going to print. Reprinting of this document, or even extracts thereof, is only permitted if written authorisation is obtained from Malibu GmbH & Co. KG beforehand. The information in this publication is compliant with the German StVO and StVZO (road traffic and road traffic licensing regulations). Mistakes, printing errors and translation errors excepted. All information is based on the characteristics of the German market.

All prices listed in this price list are non-binding recommended retail prices (RRP) and include the statutory VAT applicable in the country of delivery, but exclude shipping and transport costs. Final pricing is at the sole discretion of the individual dealer. For this reason, please contact your dealer in advance. The prices stated in this price list do not constitute a binding offer. Subject to changes and errors.
